

T BOURKE is delighted to announce the following vacancies.

ELECTRICAL PROJECT MANAGER

Electrical Project Manager required for projects in the Dublin and Leinster region. Must have 5-7yrs experience leading projects including commercial, industrial & preferably medical campus experience. The successful candidate will hold a trade or electrical engineering qualification and will have experience in leading electrical projects. This is a site based role reporting into the Electrical Contracts Manger, you will be responsible for managing and delivering electrical project packages from co-ordination to commissioning. Travel maybe required depending on project allocation. Candidate should be familiar with MS Office suite (word, excel, project).

Roles & Responsibilities

- Relevant 3rd level qualification or trade qualification
- 5+ years experience post qualification essential
- Experience in a mechanical/electrical contracting environment essential
- Planning of all resources including labour, materials and sub-contractors
- Be commercially astute and develop a good relationship with the commercial team
- Be the on-site point of contact for the client/client representative & consulting engineers
- Manage and drive a site team to meet with all project requirements and deadlines
- Ensure the adherence to safety and quality standards
- Monitor progress against work schedule to identify any issues on the projects
- Liaison with suppliers/procurement department to organise plant and equipment
- Insure project quality is aligned with client & contract requirements
- Commissioning projects
- Attending weekly progress meetings and reporting to senior management on construction progress
- Salary will be in line with qualifications and experience.

This is a great opportunity to join one of Irelands leading mechanical and electrical contractors with plenty of options for career development for the right candidate. T Bourke was formed in 1968 to undertake Mechanical Engineering Services within the Irish and European Construction Industries. The company has offices in Dublin and Limerick and has built up an enviable reputation for quality services and has successfully undertaken many major projects in the areas of Mechanical Services, Air Conditioning, Electrical Services and Process Engineering for Commercial, Industrial, Pharmaceutical and Medical Clients.

T BOURKE is delighted to announce the following vacancies.

JUNIOR MECHANICAL ENGINEER / BIM MANAGER

Junior mechanical engineer is required for our Dublin office. Candidate must have a relevant third level qualification or trade background. 3+ years' experience in the industry is desirable but not essential. This is an office based role with some onsite work. The candidate will have a keen interest in BIM (Building Information Modelling) and will give technical practical support assistance to the BIM department in project coordination through to site installation and commissioning assistance. Position may also suit a candidate looking to continue related studies on a part time basis. Candidate should be familiar with MS Office suite (word, excel, project).

Roles & Responsibilities

- Relevant 3rd level qualification;
- 3+ years' experience post qualification desirable
- BIM experience or qualification
- Experience in a mechanical/electrical contracting environment desirable
- Be commercially astute and develop a good relationship with the commercial team
- Technical coordination support to BIM department
- Site visits and meeting attendance
- Support mechanical and electrical site project managers
- Salary will be in line with qualifications and experience.
