

T BOURKE is delighted to announce the following vacancies.

## SENIOR MECHANICAL ESTIMATOR

Senior mechanical estimator required for position at Dublin office. Candidate must have 5-7yrs experience in pricing and estimating construction projects with value in excess of €3m+. The successful estimator will be responsible for producing high quality tender returns.

The candidate should come from a building services background and ideally have strong relationships with construction industry professionals. Reporting directly into the directors. The ideal candidate will be expected to work collaboratively with the other members of the estimating team to ensure a high level of quality is achieved on all tender returns. The candidate will have experience in pricing mechanical projects. Candidate should be familiar with MS Office suite (word, excel, project). This position will be office based at T Bourke Dublin office. Mechanical QS experience is preferred but not a requirement.

### Roles & Responsibilities

- 5+ years' experience post qualification essential
- Experience in a mechanical/electrical contracting environment essential
- Prepare tender bids
- Breakdown client enquiries
- Measure/Assess quantities and prepare schedules if required
- Prepare detailed Mechanical estimates
- Carry out detailed pipe take-off quantities from 2D drawings
- Support and help implement the company growth strategy
- Tender presentations
- Supporting contracts managers with variations and final accounts
- Be commercially astute and develop a good relationship with the commercial team
- Liaison with suppliers to insure valid pricing and specifications
- Occasionally attending meetings and site visits.
- Salary will be in line with qualifications and experience.

This is a great opportunity to join one of Irelands leading mechanical and electrical contractors with plenty of options for career development for the right candidate. T Bourke was formed in 1968 to undertake Mechanical Engineering Services within the Irish and European Construction Industries. The company has offices in Dublin and Limerick and has built up an enviable reputation for quality services and has successfully undertaken many major projects in the areas of Mechanical Services, Air Conditioning, Electrical Services and Process Engineering for Commercial, Industrial, Pharmaceutical and Medical Clients.

## MEDICAL GASES MAINTENANCE ENGINEER

Medical Gases maintenance engineer is required for Hospital Technical Systems (Part of T Bourke Group). Due to continuous expansion of our maintenance division we now have a requirement for a medical gases engineer. Role is to be primarily focused in the Munster region. However, nationwide travel will be required from time to time.

Candidate must have 'MGPS Competent Person' qualification or relevant trade background. This is a multi-site based role reporting into head office. The suitable candidate will be responsible for managing daily MGPS maintenance tasks and delivering maintenance project packages from co-ordination to commissioning. Travel will be required depending on project allocation. Candidate should be familiar with MS Office suite (outlook, word, excel, project) and will be equipped with mobile tablet reporting devices.

### Roles & Responsibilities

- Competent Person Medical Gas Pipeline System (MGPS) Qualification
- Competent in requirement of HTM 02-01 medical gases standards and regulations.
- 3+ years' experience post qualification desirable
- Experience in hospital environment desirable
- Experience in a medical/pharma contracting environment desirable
- Understand the operation and maintenance of medical gas supply units
- Understand on site emergency supply provisioning
- Be commercially astute and technical knowledge to engage with engineers and client
- Responsible for the provision of method statements, risk assessments and other relevant documentation
- Drawing interpretation and reporting skills essential
- MGPS maintenance procedures and testing
- Comply with onsite Permit to Work System
- Support project managers and maintenance team
- Salary will be in line with qualifications and experience.

Hospital Technical Systems was founded in 1990 and was part of MGI International, a UK medical engineering specialist providing turnkey packages worldwide. Hospital Technical Systems offer a specialist system installation and service to contractors and clients with a competitive advantage and customer focused service. In 2017, Hospital Technical Systems is acquired by T Bourke, a leading a mechanical and electrical services contractor.
